

# RGPC 600 RM Pro

Parallel Power Delivery  
Home Theater in a box

Now with Coax protection and Triggers

## Parallel Power Delivery Model

The RGPC 600 RM Pro is designed for situations when space is at a premium. Containing a specially designed 6,000 Watt parallel choke engineered to fit into a 2U rack space, the 600 RM Pro packs all the punch of its brother the 600S, but in a more rack friendly chassis. With six commercial grade Hubbell outlets on the back and a convenience outlet on the front, it is large enough to power most midsized home theater systems.

Don't let its slim size and unassuming chassis fool you, the 600 RM Pro has all the power, noise removal, and non-sacrificial surge protection that you've come to expect from Richard Gray. What's more, the 600 RM Pro now comes equipped with two banks of individually triggered outlets and the RGPC TV Guard coax protector built in. These two new features not only give you added control but additional protection as well.

# \$1295

MSRP

- Parallel Power Delivery System
- Dual stage AC surge suppression
- High-Current-On-Demand
- Noise removal with no current limiting

### Specs:

Dimensions:	17 x 3.5 x 11 (WHD)
Net weight:	32 lbs
Outlets:	6 commercial grade Hubbell, 1 courtesy outlet, front
Power Cord:	Detachable. 6 ft 12 AWG cord, NEMA 5-15 Plug, 20Amp IEC connector
Input Voltage:	120 VAC 60Hz (240 VAC 50Hz Export)
Output Voltage:	120 VAC 60Hz (240 VAC 50Hz Export)
MOV:	18,000 Joules, 320V Clamp
Noise Removal:	> 45dB
Fuse:	15 amp, push to reset breaker
Draw at Idle:	0
Maximum Capacity:	20Amps
Rack Mountable:	Yes, rack ears included
Indicator Light:	None
Sequential Turn on:	2x12V triggers (2 duplexes switched, 1 unswitched)
Coax Surge:	180V firing, 500Amp surge current, <1ohm insertion loss
No user serviceable parts inside
