

# RGPC Powerhouse

Home Theaters  
Theater-style home theaters  
Systems requiring rack mount isolation

## Isogray Power Delivery Model

Designed to power home theaters, home automation and whole house systems, the PowerHouse can handle up to 6,200 Watts of continuous power. The PowerHouse combines a 5 Kilowatt isolation transformers (that's three SubStations) and a 1200C all in one rack mountable chassis. An isolation transformer separates components from other devices connected in the home that commonly cause ground loops. With 21 commercial grade Hubbell outlets on board providing both isolation and RGPC patented parallel power-on-demand, the PowerHouse has enough room to power an entire rack ... or two.

Available in black or silver the PowerHouse is available for single or triple phase AC

- Ground loop removal
- Added protection against lightning
- True balanced power
- High current on demand
- Noise removal with no current limiting
- Able to handle over 25,000 watts of in-rush current
- Allows user to run balanced 240V all the way to the rack

### Specs:

Dimensions:	17 x 12.25 x 22 inches (WHD)
Net weight:	350 lbs
Outlets:	20 commercial grade Hubbell back panel, 1 commercial grade Hubbell front panel
Power Cord:	Permanent. 8ft, 10 AWG cord, NEMA 6-30 Plug (3x - blunt cut cord)
Input Voltage:	208-240 VAC 60Hz
Output Voltage:	120 VAC 60Hz
Fuse:	11-20 Amp fast blow fuse-replace with Littlefuse 3AB
Breaker:	20Amp Reset only style
Draw at Idle:	< 100 watts
Maximum Capacity:	6200 Watts
Rack Mountable:	Yes, remove 8 front panel screws to access rack ears
Indicator Light:	Orange or Blue Front – rear switch
No user serviceable parts inside	
Prices and specifications subject to change without notice.
